

OUTREACH & AMBASSADOR PROGRAM

The Ambassador Workshop guides Airmen, Guardians, and caregivers in finding and shaping their personal testimonies of resiliency and recovery to deliver to internal and external Air Force and Space Force audiences in-person or virtually.

Each Ambassador receives personalized guidance and feedback to create multiple messages and calls to action that empowers his/her audience. After each workshop, Ambassadors are invited to attend outreach engagements, media opportunities and leadership courses to help spread awareness and utilization of AFW2 Programs and services.

Recovery Through Sharing

Being able to put words to individual experiences allows Airmen and Guardians to endure their journey and heal. When addressing an Air Force or Space Force audience, our Ambassadors have the opportunity to create change and impact the culture.

Briefings

Educating leadership about the AFW2 program is key to help ensure current and future Airmen and Guardians are informed about resources available during times of need. Ambassadors value their mission of sharing to enhance the overall awareness of the AFW2 program.

One-On-One Focused Training

Workshop facilitators help shape stories of recovery while teaching best practices in verbal and non-verbal communication. Ambassadors share their story with confidence to Air Force and Space Force audiences.
